The Board and management of the Company understand and recognise the importance of achieving good corporate governance across the Group. Throughout the year ended 30 June 2017, the Company adopted and carried out its corporate governance practices in compliance with each of the ASX Corporate Governance Council's Corporate Governance Principles and Recommendations.

This statement discusses various aspects of the corporate governance policies and practices adopted by the Company. For further information on corporate governance policies and procedures adopted by the Company please refer to our website <http://www.imf.com.au/shareholders/corporate-governance>.

### Board Functions

The Board seeks to identify the expectations of the shareholders, as well as other regulatory and ethical expectations and obligations. In addition, the Board is responsible for identifying areas of significant business risk and ensuring arrangements are in place to adequately manage those risks.

To ensure that the Board is well equipped to discharge its responsibilities it has established guidelines for the nomination and selection of directors and for the operation of the Board.

The responsibility for operations and administration of the Company is delegated, by the Board, to the Managing Director and the executive management team. The Board ensures that this team is appropriately qualified and experienced to discharge its responsibilities.

Whilst the Board at all times retains full responsibility for guiding and monitoring the Group, in discharging its stewardship it makes use of sub-committees. Specialist committees are able to focus on a particular responsibility and provide informed feedback to the Board.

To this end the Board has established the following committees:

- Audit and Risk;
- Remuneration;
- Nomination; and
- Corporate Governance.

The roles and responsibilities of these committees are discussed in this Corporate Governance Statement.

The Board is responsible for ensuring that Management's objectives and activities are aligned with the expectations and risks identified by the Board. The Board has a number of mechanisms in place to ensure this is achieved including:

- Board approval of a strategic plan designed to meet stakeholders' needs and manage business risk;
- ongoing development of the strategic plan and approving initiatives and strategies designed to ensure the continued growth and success of the Group; and
- implementation of budgets by Management and monitoring progress against budget – via the establishment and reporting of both financial and non-financial key performance indicators.

Other functions reserved to the Board include:

- approval of the annual and half-yearly financial reports;
- approving and monitoring the progress of major capital expenditure, capital management, and acquisitions and divestitures;
- ensuring that any significant risks that arise are identified, assessed, appropriately managed and monitored; and
- appointing and monitoring the performance of Key Management Personnel.

### Structure of the Board

The skills, experience and expertise relevant to the position of director of each director in office at the date of the annual report is included in the Directors' Report. Directors of IMF are considered to be independent when they are independent of Management and free from any business or other relationship that could materially interfere with, or could reasonably be perceived to materially interfere with, the exercise of their unfettered and independent judgement.

The composition of the Board consists of two executive directors and four independent non-executive directors. The Board believes that the majority of the individuals on the Board can, and do, make independent judgments in the best interests of the Group on all relevant issues.

The Board has in place a number of policy measures to ensure that independent judgment is achieved and maintained in respect of its decision-making processes, including:

- the Chairman is an independent director and has a casting vote at Board meetings where the votes of the directors are tied;
- the directors are able to obtain independent professional advice at the expense of the Group;
- Directors who have a conflict of interest in relation to a particular item of business must absent themselves from the Board meeting before commencement of discussion on the topic; and
- at least half of the Board consists of independent directors.

# Corporate Governance Statement

(continued)

In the context of director independence, 'materiality' is considered from both the Group and individual director perspective. The determination of materiality requires consideration of both quantitative and qualitative elements. An item is presumed to be quantitatively immaterial if it is equal to or less than 5% of the appropriate base amount. It is presumed to be material (unless there is qualitative evidence to the contrary) if it is equal to or greater than 10% of the appropriate base amount. Qualitative factors considered include whether a relationship is strategically important, the competitive landscape, the nature of the relationship and the contractual or other arrangements governing it and other factors that point to the actual ability of the director in question to shape the direction of the Group.

In accordance with the definition of independence above, and the materiality thresholds set, the following directors of IMF are considered to be independent:

Name	Position
Michael Kay	Non-Executive Chairman
Alden Halse	Non-Executive Director
Michael Bowen	Non-Executive Director
Wendy McCarthy	Non-Executive Director

In accordance with ASX CG Guidance, the Board has considered the independence of Michael Bowen and Alden Halse. Both have been Directors of the Company for more than 10 years and Michael Bowen is also a partner at DLA Piper, a law firm who provides legal services to the Company on certain engagements (see Note 23 of the Financial Statements). The Board has determined that these factors do not impact on their independence because in the exercise of their duties they demonstrate independent judgment and objective assessment of matters before the Board.

The position held by each director in office at the date of this report is as follows:

Name	Position
Michael Kay	Non-Executive Chairman
Andrew Saker	Managing Director
Hugh McLernon	Executive Director
Alden Halse	Non-Executive Director
Michael Bowen	Non-Executive Director
Wendy McCarthy	Non-Executive Director

For additional details regarding Board appointments, please refer to the Directors' Report and the Company's website.

## Audit and Risk Committee

The Board has an Audit and Risk Committee, which operates under a charter approved by the Board. It is the Board's responsibility to ensure that an effective internal control framework exists within the Group. This includes internal controls to deal with both the effectiveness and efficiency of significant business processes, the safeguarding of assets, the maintenance of proper accounting records, and the reliability of financial information as well as non-financial considerations such as the benchmarking of operational key performance indicators.

The Audit and Risk Committee supports the Board in establishing and maintaining a framework of internal control and ethical standards.

The Committee also provides the Board with additional assurance regarding the reliability of financial information for inclusion in the financial reports. All members of the Audit and Risk Committee are non-executive directors.

The Company's process of risk management and internal compliance and control includes:

- establishing the Company's goals and objectives, and implementing and monitoring strategies and policies to achieve these goals and objectives;
- continuously identifying and measuring risks that might impact upon the achievement of the Company's goals and objectives, and monitoring the environment for emerging factors and trends that affect these risks;
- formulating risk management strategies to manage identified risks, and designing and implementing appropriate risk management policies and internal controls; and
- monitoring the performance of, and continuously improving the effectiveness of, risk management systems and internal compliance and controls, including an annual assessment of the effectiveness of risk management and internal compliance and controls.

To this end, comprehensive practices are in place that are directed towards achieving the following objectives:

- effectiveness and efficiency in the use of the Company's resources;
- compliance with applicable laws and regulations; and
- preparation of reliable published financial information.

The Board oversees an annual assessment of the effectiveness of risk management and internal compliance and control. The responsibility for undertaking and assessing risk management and internal control effectiveness is delegated to Management. Management is required by the Board to assess risk management and associated internal compliance and control procedures and report back on the efficiency and effectiveness of the Group's risk management.

During the 2017 financial year, following the further geographic expansion of the Group's activities, under the direction of the Board and with input from an external consultant, Management undertook a review of risk management and reporting procedures. The implementation of any procedural updates is due to be completed in the first half of the 2018 financial year.

The members of the Audit and Risk Committee during the year were: Alden Halse (Chairman), Michael Bowen, Wendy McCarthy and Michael Kay.

For details on the number of meetings of the Audit and Risk Committee held during the year and the attendees at those meetings, refer to the Directors' Report.

**Managing Director and Chief Financial Officer Certification**

The Managing Director and the Chief Financial Officer have provided a written statement to the Board that:

- their view provided on the Group's financial report is founded on a sound system of risk management and internal compliance and controls which implements the financial policies adopted by the Board; and
- the Group's risk management and internal compliance and control system is operating effectively in all material respects.

**Performance**

The performance of the Board and key executives is reviewed regularly against both measurable and qualitative indicators. The performance criteria against which directors are assessed are aligned with the financial and non-financial objectives of the Group, as summarised in the diagram below.

In order to ensure that the Board continues to discharge its responsibilities in an appropriate manner, the performance of directors is reviewed annually by the chairperson. During the 2017 financial year, the chairperson undertook a performance evaluation of each director and key executive.

For details on director attendance at Board and Board committee meetings during the year ended 30 June 2017, refer to the Directors' Report.

- performance incentives that allow executives to share in the success of the Group.

For a full discussion of the Company's remuneration philosophy and framework and the remuneration received by directors and executives in the current period please refer to the Remuneration Report, which is contained within the Directors' Report.

The Board has established a Remuneration Committee comprising non-executive directors. Members of the Remuneration Committee throughout the year were: Michael Bowen (Chairman), Alden Halse, Wendy McCarthy and Michael Kay.

## Nomination

The Company understands that the appointment and reappointment of directors to the Board is critical to the performance of the Company. - attraction and retention of a diverse range of people;
- awareness of the differing needs of a diverse range of employees;
- provision of flexible work arrangements; and
- promotion of a culture that is free from discrimination, harassment and bullying.

In order to monitor the Company's gender diversity, the Board receives a report on an annual basis that provides the female representation at all levels within the Group. The 2017 report provides the following information (full time equivalent):

The Gender Equality Remuneration Review undertaken in 2016 by the Remuneration Committee demonstrated that IMF's remuneration was gender neutral and meritocratic. It is proposed to undertake further periodic reviews.

The Board considers that progress is being made towards achieving the Company's objective to support female representation at senior leadership and Board levels, including by the welcoming of 8 new female employees to the Company during the 2017 financial year and the promotion of Ms Allison Chock to the role of Chief Investment Officer for the United States.

The Nomination Committee will endeavour to improve the gender diversity at Board level at any time nominations are required to fill a Board position. In the 2017 financial year the Corporate Governance Committee undertook a review of IMF's diversity policy as part of its regular periodic review of IMF's corporate governance policies and procedures.
